

Innovation  
that excites

# PERFORMANCE UNLEASHED

The ultimate expression of GT-R performance, the Nissan GT-R NISMO once again raises the bar and serves notice to the world's manufacturers – it's the dominant supercar of its time. From a uniquely developed high-downforce body kit, to a masterfully-tuned suspension, to specially developed high-capacity turbos, the 441 kW Nissan GT-R NISMO is pure performance. As NISMO has been the factory racing arm of Nissan for over 30 years, you should expect nothing less.

**GT  
R** **nismo**

NISMO, a short form of "Nissan Motorsports," is the performance brand for Nissan and is one of their most widely recognised examples of "Innovation that excites." NISMO offers products that provide an exciting driving experience with motorsports-inspired aerodynamics and styling, enhanced handling characteristics, and unmatched agility.
